

# GIS in the Rockies

## Workshops, Conference and Exhibition

Plaza at the Mart, Denver, Colorado

September 18-20, 2001

"Convergence of Information & Geography for Everyone"

### Tuesday September 18 Workshops

9:00 am-12 noon

- GIS Modelling in Education
- Basics of GPS Data Collection
- Customizing ArcMAP with VBA and Visual Basic
  - Basic Boundary Law for Non-Surveyors
- Get More Mileage from Your Digital Design Data:  
Create and Publish, the Transition from CAD to GIS
  - Digital Convergence:

The Integration of GIS, Remote Sensing and Cartography

1:30-4:30 pm

- Using the GeoDatabase
- Advanced Applications of GPS Data Collection
- Customizing ArcIMS via Server Side Scripting
  - Photogrammetry for GIS
- Get More Mileage from Your Digital Design Data:  
Publish and Mobilize, from the Web to the Field
  - Expand Beyond Pixels:

Introduction to eCognition: Object Oriented Image Analysis

Luncheon speaker: Dr. Robert Feingold, Colorado Chief Information Officer

### Wednesday September 19 Conference and Exhibition

Keynote Speaker 9:00 am

Karen Siderelis, US Geological Survey Geographic Information Officer

Exhibition 10:00 am - 7:00 pm • 70+ booths

Concurrent Technical Sessions

- Natural Resources • Remote Sensing and GIS • Intro to GIS •
- Internet GIS Technology • Innovative Solutions in Enterprise GIS •

Poster Session and Contest

Evening Social 5:00 - 7:00 pm

Join your colleagues in the exhibit area for food, door prizes, networking, and demonstrations from the top vendors in GIS and GIS-related technologies

### Thursday September 20 Conference and Exhibition

Exhibition 10:00 am - 3:00 pm • 70+ booths

Concurrent Technical Sessions

- Colorado GIS User Community • Water Resources • Utilities, Roadways and Emergency Services •
- Surveying, GPS and Data Collection • GIS in Business •

Poster Session

**Sponsors: ACSM • ASPRS • GITA • PLSC • URISA**

Wheelchair accessible • Registration form is on the web site
